

Well Registration | Online Community Webinar

December 19, 2023

6:00-8:00 PM

Managing our local groundwater sustainably in Tehama County

TEHAMA COUNTY

FLOOD CONTROL AND WATER CONSERVATION DISTRICT

Did you receive a well registration form in the mail?

The Tehama County Flood Control and Water Conservation District invites you to an online community workshop about the County Well Registration Program and sustainable groundwater management.

The webinar will cover:

- Well Registration Program overview and updates
- Opportunity for Q&A
- Guidance for completing well registration forms

Why is this important?

California enacted the **Sustainable Groundwater Management Act (SGMA)** in 2014, requiring local agencies to develop and implement a detailed management plan to better manage our groundwater. The Flood Control and Water Conservation District is responsible for implementing SGMA for subbasins within the County boundaries. Community understanding and input are crucial to achieve long-term sustainability.
