TEHAMA COUNTY

FLOOD CONTROL AND WATER CONSERVATION DISTRICT

The Tehama County Flood Control and Water Conservation District invites you to an informational webinar and interactive public open house about recent updates for sustainable groundwater management in Tehama County.

The Webinar and Open House will cover:

- Refresher on the Sustainable Groundwater Management Act (SGMA) -- the state law under which we operate.
- Roles and responsibilities of local management for achieving long-term sustainable groundwater in Tehama County.
- Current and historic groundwater conditions.
- Information/assistance completing well registration forms.
- Updates and plans for important projects and management actions, including recharge, well mitigation, and managing groundwater use demand.
- Funding - current expenses, funding opportunities, and future needs.
- Getting involved and improving outreach and engagement.

Make the most of this informal opportunity to learn about groundwater management in Tehama County. Get involved! We value and encourage your feedback and recommendations.

Subbasins in Tehama County

Groundwater Sustainability Plans (GSPs) have been developed for five subbasins: Bowman, Red Bluff, Antelope, Los Molinos, and Corning. The Corning Subbasin extends into Glenn County, and the District is coordinating with the Corning Sub-basin GSA on a single GSP for the subbasin.
