Project Title:
Corning Water District water service connection project.

Project Location - Specific:
Corning Subbasin per DWR Bulletin 118. Coordinates: Latitude 39.89714, Longitude -122.21384.

Project Location – City:
Unincorporated

Project Location – County
Tehama County

Description of Nature, Purpose, and Beneficiaries of Project:
The Corning Water District will be installing a water service connection from its existing water system to an existing customer who desires to receive surface water when available. The project will involve the construction of a direct water service connection. This action covers the construction-related activities for installation of this water service connection which is an element of Corning GSP implementation activities to achieve long term groundwater sustainability in the Subbasin.

Project Location – County
Tehama County

Description of Nature, Purpose, and Beneficiaries of Project:
The Corning Water District will be installing a water service connection from its existing water system to an existing customer who desires to receive surface water when available. The project will involve the construction of a direct water service connection. This action covers the construction-related activities for installation of this water service connection which is an element of Corning GSP implementation activities to achieve long term groundwater sustainability in the Subbasin.

Title

Corning Water District water service connection project

Document Description

The Corning Water District will be installing a water service connection from its existing water system to an existing customer who desires to receive surface water when available. The project will involve the construction of a direct water service connection. This action covers the construction-related activities for installation of this water service connection which is an element of Corning GSP implementation activities to achieve long term groundwater sustainability in the Subbasin.

Project Title:
Corning Water District water service connection project.

Project Location - Specific:
Corning Subbasin per DWR Bulletin 118. Coordinates: Latitude 39.95286, Longitude -122.21141.

Project Location – City:
Corning, CA

Project Location – County
Tehama County

Description of Nature, Purpose, and Beneficiaries of Project:
The Corning Water District will be installing a water service connection from its existing water system to an existing customer who desires to receive surface water when available. The project will involve the construction of a direct water service connection. This action covers the construction-related activities for installation of this water service connection which is an element of Corning GSP implementation activities to achieve long term groundwater sustainability in the Subbasin.
